Have your student make a recording of one of their memorized Level X pieces.

1. Students should dress nicely as for a public recital.
2. If filming with a phone or tablet, please film in "landscape mode," with the device set horizontally, not vertically. No handheld video. Use a tripod or brace the iPad or phone on solid surface to reduce camera motion.
3. Make sure there is good lighting on the student's face and the keyboard. Avoid backlighting.
4. The recording device should be positioned to capture the performance from the side, including the student's hands and profile of face.

Have your student upload their recording to their YouTube channel.

1. Please set privacy to Public, not Unlisted or Private, so the link can be included in OMTA YouTube channel playlists.
2. Select "Not for Children" so the chair can link the performances.
3. Have students send their video links to you first to verify that everything is correct. They should use their best recording.
4. The YouTube channel upload should include the following information in this order:
