

Required Grade Minimum for Level 10 Syllabus Evaluation

Teachers and Adjudicators alike are concerned that some students taking the Level 10 evaluations are too young and that there is pressure to complete the Syllabus program before a student enters High School. In response to this concern the Syllabus Committee made this decision:

Students must be in 10th grade in order to register for a Level 10 evaluation, beginning Spring 2013.

If you feel that your student deserves special consideration regarding this rule, you may contact the State Syllabus Chair.
